Sub: Withdrawal of Ticketing guidelines for 9W as validating / plating carrier.

With effect from 01st March 2018, Jet Airways is withdrawing the circular pertaining to usage of 9W (589) stock for OAL fares where 9W participation is less than 50% in the entire journey. This circular supersedes guidelines given under ref 001/Intl ticket/14.

With this withdrawal, Jet Airways will accept all auto priced tickets where there is no under collection for any participating carrier. Additionally, it should be ensured that 9W stock is used correctly and in accordance to the IATA Reservation & Ticketing guidelines.

9W reserves the right to raise ADMs for 9W stock where there is misuse or abuse and under collection of fare, fuel charges, surcharges and taxes in general.

Should you require any clarification in this matter please route the same via Central Help Desk or sales representative in your region.

Request you to please disseminate and brief all ticketing staff and travel agents in your region.
